

Privacy Policy

Preamble

With the following privacy policy we would like to inform you which types of your personal data (hereinafter also abbreviated as "data") we process for which purposes and in which scope. The privacy statement applies to all processing of personal data carried out by us, both in the context of providing our services and in particular on our websites, in mobile applications and within external online presences, such as our social media profiles (hereinafter collectively referred to as "online services").

The terms used are not gender-specific.

Overview of processing operations

The following table summarises the types of data processed, the purposes for which they are processed and the concerned data subjects.

Categories of Processed Data

- Inventory data.
- Location data.
- Contact data.
- Content data.
- Usage data.
- Meta, communication and process data.
- Job applicant details.

Categories of Data Subjects

- Communication partner.
- Users.
- Job applicants.

Purposes of Processing

- Provision of contractual services and fulfillment of contractual obligations.
- Contact requests and communication.
- Security measures.
- Web Analytics.
- Managing and responding to inquiries.
- Job Application Process.
- Feedback.
- Marketing.
- Profiles with user-related information.
- Provision of our online services and usability.
- Information technology infrastructure.

Relevant legal bases

Security Precautions

We take appropriate technical and organisational measures in accordance with the legal requirements, taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of processing as well as the risk of varying likelihood and severity for the rights and freedoms of natural persons, in order to ensure a level of security appropriate to the risk.

The measures include, in particular, safeguarding the confidentiality, integrity and availability of data by controlling physical and electronic access to the data as well as access to, input, transmission, securing and separation of the data. In addition, we have established procedures to ensure that data subjects' rights are respected, that data is erased, and that we are prepared to respond to data threats rapidly. Furthermore, we take the protection of personal data into account as early as the development or selection of hardware, software and service providers, in accordance with the principle of privacy by design and privacy by default.

TLS/SSL encryption (https): To protect the data of users transmitted via our online services, we use TLS/SSL encryption. Secure Sockets Layer (SSL) is the standard technology for securing internet connections by encrypting the data transmitted between a website or app and a browser (or between two servers). Transport Layer

Security (TLS) is an updated and more secure version of SSL. Hyper Text Transfer Protocol Secure (HTTPS) is displayed in the URL when a website is secured by an SSL/TLS certificate.

Transmission of Personal Data

In the context of our processing of personal data, it may happen that the data is transferred to other places, companies or persons or that it is disclosed to them. Recipients of this data may include, for example, service providers commissioned with IT tasks or providers of services and content that are embedded in a website. In such cases, the legal requirements will be respected and in particular corresponding contracts or agreements, which serve the protection of your data, will be concluded with the recipients of your data.

International data transfers

Erasure of data

The data processed by us will be erased in accordance with the statutory provisions as soon as their processing is revoked or other permissions no longer apply (e.g. if the purpose of processing this data no longer applies or they are not required for the purpose). If the data is not deleted because they are required for other and legally permissible purposes, their processing is limited to these purposes. This means that the data will be restricted and not processed for other purposes. This applies, for example, to data that must be stored for commercial or tax reasons or for which storage is necessary to assert, exercise or defend legal claims or to protect the rights of another natural or legal person. In the context of our information on data processing, we may provide users with further information on the deletion and retention of data that is specific to the respective processing operation.

Rights of Data Subjects

Use of Cookies

Cookies are small text files or other data records that store information on end devices and read information from the end devices. For example, to store the login status in a user account, the contents of a shopping cart in an e-shop, the contents

accessed or the functions used. Cookies can also be used for various purposes, e.g. for purposes of functionality, security and convenience of online offers as well as the creation of analyses of visitor flows.

Information on consent: We use cookies in accordance with the statutory provisions. Therefore, we obtain prior consent from users, except when it is not required by law. In particular, consent is not required if the storage and reading of information, including cookies, is strictly necessary in order to provide an information society service explicitly requested by the subscriber or user. Essential cookies usually include cookies with functions related to the display and operability of the onlineservice, load balancing, security, storage of users' preferences and choices or similar purposes related to the provision of the main and secondary functions of the onlineservice requested by users. The revocable consent will be clearly communicated to the user and will contain the information on the respective cookie use.

Information on legal bases under data protection law: The legal basis under data protection law on which we process users' personal data with the use of cookies depends on whether we ask users for consent. If users consent, the legal basis for processing their data is their declared consent. Otherwise, the data processed with the help of cookies is processed on the basis of our legitimate interests (e.g. in a business operation of our online services and improvement of its usability) or, if this is done in the context of the fulfillment of our contractual obligations, if the use of cookies is necessary to fulfill our contractual obligations. For which purposes the cookies are processed by us, we do clarify in the course of this privacy policy or in the context of our consent and processing procedures.

Retention period: With regard to the retention period, a distinction is drawn between the following types of cookies:

- **Temporary cookies (also known as "session cookies"):** Temporary cookies are deleted at the latest after a user has left an online service and closed his or her end device (i.e. browser or mobile application).
- **Permanent cookies:** Permanent cookies remain stored even after the terminal device is closed. For example, the login status can be saved, or preferred content can be displayed directly when the user visits a website again. Likewise, user data collected with the help of cookies can be used for reach measurement. Unless we provide users with explicit information about the type and storage duration of cookies (e.g., as part of obtaining consent), users should assume that cookies are permanent and that the storage period can be up to two years.

General notes on revocation and objection (so-called "Opt-Out"): Users can

revoke the consents they have given at any time and object to the processing in accordance with legal requirements. Users can restrict the use of cookies in their browser settings, among other options (although this may also limit the functionality of our online offering). A objection to the use of cookies for online marketing purposes can also be made through the websites <https://optout.aboutads.info> and <https://www.youronlinechoices.com/>.

- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR). Consent (Article 6 (1) (a) GDPR).

Further information on processing methods, procedures and services used:

- **Processing Cookie Data on the Basis of Consent:** We use a cookie management solution in which users' consent to the use of cookies, or the procedures and providers mentioned in the cookie management solution, can be obtained, managed and revoked by the users. The declaration of consent is stored so that it does not have to be retrieved again and the consent can be proven in accordance with the legal obligation. Storage can take place server-sided and/or in a cookie (so-called opt-out cookie or with the aid of comparable technologies) in order to be able to assign the consent to a user or and/or his/her device. Subject to individual details of the providers of cookie management services, the following information applies: The duration of the storage of the consent can be up to two years. In this case, a pseudonymous user identifier is formed and stored with the date/time of consent, information on the scope of the consent (e.g. which categories of cookies and/or service providers) as well as the browser, system and used end device; **Legal Basis:** Consent (Article 6 (1) (a) GDPR).
- **BorlabsCookie:** Cookie Consent Management: Procedures for obtaining, recording, managing, and revoking consents, particularly for the use of cookies and similar technologies for storing, accessing, and processing information on users' devices as well as their processing; **Service provider:** Executed on servers and/or computers under our controllership; **Website:** <https://borlabs.io/borlabs-cookie/>. **Further Information:** An individual user ID, language as well as types of consent and the time of their submission are stored on the server and in the cookie on the user's device.

Provision of online services and web hosting

We process user data in order to be able to provide them with our online services. For this purpose, we process the IP address of the user, which is necessary to transmit the content and functions of our online services to the user's browser or terminal device.

- **Processed data types:** Usage data (e.g. websites visited, interest in content, access times); Meta, communication and process data (e.g. IP addresses, time information, identification numbers, consent status). Content data (e.g. text input, photographs, videos).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Provision of our online services and usability; Information technology infrastructure (Operation and provision of information systems and technical devices, such as computers, servers, etc.). Security measures.
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Provision of online offer on rented hosting space:** For the provision of our online services, we use storage space, computing capacity and software that we rent or otherwise obtain from a corresponding server provider (also referred to as a "web hoster"); **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).
- **Collection of Access Data and Log Files:** The access to our online services is logged in the form of so-called "server log files". Server log files may include the address and name of the web pages and files accessed, the date and time of access, data volumes transferred, notification of successful access, browser type and version, the user's operating system, referrer URL (the previously visited page) and, as a general rule, IP addresses and the requesting provider. The server log files can be used for security purposes, e.g. to avoid overloading the servers (especially in the case of abusive attacks, so-called DDoS attacks) and to ensure the stability and optimal load balancing of the servers; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).
Retention period: Log file information is stored for a maximum period of 30 days and then deleted or anonymized. Data, the further storage of which is necessary for evidence purposes, are excluded from deletion until the respective incident has been finally clarified.
- **Wordpress.com:** Hosting and software for the creation, provision and operation of websites, blogs and other online services; **Service provider:** Aut O'Mattic A8C Ireland Ltd., Grand Canal Dock, 25 Herbert Pl, Dublin, D02 AY86, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://wordpress.com>; **Privacy Policy:** <https://automattic.com/privacy/>; **Data Processing Agreement:** <https://wordpress.com/support/data-processing-agreements/>. **Basis for third country transfer:** EU-US Data Privacy Framework (DPF).

Blogs and publication media

We use blogs or comparable means of online communication and publication (hereinafter "publication medium"). Readers' data will only be processed for the purposes of the publication medium to the extent necessary for its presentation and communication between authors and readers or for security reasons. For the rest, we refer to the information on the processing of visitors to our publication medium within the scope of this privacy policy.

- **Processed data types:** Inventory data (e.g. names, addresses); Contact data (e.g. e-mail, telephone numbers); Content data (e.g. text input, photographs, videos); Usage data (e.g. websites visited, interest in content, access times). Meta, communication and process data (e.g. IP addresses, time information, identification numbers, consent status).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Provision of contractual services and fulfillment of contractual obligations; Feedback (e.g. collecting feedback via online form). Provision of our online services and usability.
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Contact and Inquiry Management

When contacting us (e.g. via mail, contact form, e-mail, telephone or via social media) as well as in the context of existing user and business relationships, the information of the inquiring persons is processed to the extent necessary to respond to the contact requests and any requested measures.

- **Processed data types:** Contact data (e.g. e-mail, telephone numbers); Content data (e.g. text input, photographs, videos); Usage data (e.g. websites visited, interest in content, access times). Meta, communication and process data (e.g. IP addresses, time information, identification numbers, consent status).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.).
- **Purposes of Processing:** Contact requests and communication; Managing and responding to inquiries; Feedback (e.g. collecting feedback via online form). Provision of our online services and usability.
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR). Performance of a contract and prior requests (Article 6 (1) (b) GDPR).

Further information on processing methods, procedures and services used:

- **Contact form:** When users contact us via our contact form, e-mail or other communication channels, we process the data provided to us in this context to process the communicated request; **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).

Job Application Process

The application process requires applicants to provide us with the data necessary for their assessment and selection. The information required can be found in the job description or, in the case of online forms, in the information contained therein.

In principle, the required information includes personal information such as name, address, a contact option and proof of the qualifications required for a particular employment. Upon request, we will be happy to provide you with additional information.

If made available, applicants can submit their applications via an online form. The data will be transmitted to us encrypted according to the state of the art. Applicants can also send us their applications by e-mail. Please note, however, that e-mails on the Internet are generally not sent in encrypted form. As a rule, e-mails are encrypted during transport, but not on the servers from which they are sent and received. We can therefore accept no responsibility for the transmission path of the application between the sender and the reception on our server. For the purposes of searching for applicants, submitting applications and selecting applicants, we may make use of the applicant management and recruitment software, platforms and services of third-party providers in compliance with legal requirements. Applicants are welcome to contact us about how to submit their application or send it to us by regular mail.

Processing of special categories of data: To the extent that special categories of personal data (Article 9(1) GDPR, e.g., health data, such as disability status or ethnic origin) are requested from applicants or communicated by them during the application process, their processing is carried out so that the controller or the data subject can exercise rights arising from employment law and the law of social security and social protection, in the case of protection of vital interests of the applicants or other persons, or for purposes of preventive or occupational medicine, for the assessment of the employee's work ability, for medical diagnosis, for the provision or treatment in the health or social sector, or for the management of systems and services in the health or social sector.

Ereasure of data: In the event of a successful application, the data provided by the applicants may be further processed by us for the purposes of the employment relationship. Otherwise, if the application for a job offer is not successful, the

applicant's data will be deleted. Applicants' data will also be deleted if an application is withdrawn, to which applicants are entitled at any time. Subject to a justified revocation by the applicant, the deletion will take place at the latest after the expiry of a period of six months, so that we can answer any follow-up questions regarding the application and comply with our duty of proof under the regulations on equal treatment of applicants. Invoices for any reimbursement of travel expenses are archived in accordance with tax regulations.

Admission to a talent pool - Admission to a talent pool, if offered, is based on consent. Applicants are informed that their consent to be included in the talent pool is voluntary, has no influence on the current application process and that they can revoke their consent at any time for the future.

- **Processed data types:** Inventory data (e.g. names, addresses); Contact data (e.g. e-mail, telephone numbers); Content data (e.g. text input, photographs, videos). Job applicant details (e.g. Personal data, postal and contact addresses and the documents pertaining to the application and the information contained therein, such as cover letter, curriculum vitae, certificates, etc., as well as other information on the person or qualifications of applicants provided with regard to a specific job or voluntarily by applicants).
- **Data subjects:** Job applicants.
- **Purposes of Processing:** Job Application Process (Establishment and possible later execution as well as possible later termination of the employment relationship).
- **Legal Basis:** Job application process as a pre-contractual or contractual relationship (Article 6 (1) (b) GDPR).

Web Analysis, Monitoring and Optimization

Web analysis is used to evaluate the visitor traffic on our website and may include the behaviour, interests or demographic information of users, such as age or gender, as pseudonymous values. With the help of web analysis we can e.g. recognize, at which time our online services or their functions or contents are most frequently used or requested for repeatedly, as well as which areas require optimization.

In addition to web analysis, we can also use test procedures, e.g. to test and optimize different versions of our online services or their components.

Unless otherwise stated below, profiles, i.e. data aggregated for a usage process, can be created for these purposes and information can be stored in a browser or in a terminal device and read from it. The information collected includes, in particular, websites visited and elements used there as well as technical information such as

the browser used, the computer system used and information on usage times. If users have agreed to the collection of their location data from us or from the providers of the services we use, location data may also be processed.

Unless otherwise stated below, profiles, that is data summarized for a usage process or user, may be created for these purposes and stored in a browser or terminal device (so-called "cookies") or similar processes may be used for the same purpose. The information collected includes, in particular, websites visited and elements used there as well as technical information such as the browser used, the computer system used and information on usage times. If users have consented to the collection of their location data or profiles to us or to the providers of the services we use, these may also be processed, depending on the provider.

The IP addresses of the users are also stored. However, we use any existing IP masking procedure (i.e. pseudonymisation by shortening the IP address) to protect the user. In general, within the framework of web analysis, A/B testing and optimisation, no user data (such as e-mail addresses or names) is stored, but pseudonyms. This means that we, as well as the providers of the software used, do not know the actual identity of the users, but only the information stored in their profiles for the purposes of the respective processes.

- **Processed data types:** Usage data (e.g. websites visited, interest in content, access times). Meta, communication and process data (e.g. IP addresses, time information, identification numbers, consent status).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Web Analytics (e.g. access statistics, recognition of returning visitors); Profiles with user-related information (Creating user profiles). Provision of our online services and usability.
- **Security measures:** IP Masking (Pseudonymization of the IP address).
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR).

Further information on processing methods, procedures and services used:

- **Google Analytics:** We use Google Analytics to perform measurement and analysis of the use of our online services by users based on a pseudonymous user identification number. This identification number does not contain any unique data, such as names or email addresses. It is used to assign analysis information to an end device in order to recognize which content users have accessed within one or various usage processes, which search terms they have used, have accessed again or have interacted with our online services. Likewise, the time of use and its duration are stored, as well as the sources of users referring to our online services and technical aspects of their end devices and browsers.

In the process, pseudonymous profiles of users are created with information

from the use of various devices, and cookies may be used. Google Analytics does not log or store individual IP addresses. Analytics does provide coarse geo-location data by deriving the following metadata from IP addresses: City (and the derived latitude, and longitude of the city), Continent, Country, Region, Subcontinent (and ID-based counterparts). For EU-based traffic, IP-address data is used solely for geo-location data derivation before being immediately discarded. It is not logged, accessible, or used for any additional use cases. When Analytics collects measurement data, all IP lookups are performed on EU-based servers before forwarding traffic to Analytics servers for processing; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://marketingplatform.google.com/intl/en/about/analytics/>; **Security measures:** IP Masking (Pseudonymization of the IP address); **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://business.safety.google/adsprocessorterms/>; **Basis for third country transfer:** EU-US Data Privacy Framework (DPF), Standard Contractual Clauses (<https://business.safety.google/adsprocessorterms/>); **Opt-Out:** Opt-Out-Plugin: <https://tools.google.com/dlpage/gaoptout?hl=en>, Settings for the Display of Advertisements: <https://myadcenter.google.com/personalizationoff>. **Further Information:** <https://business.safety.google/adsservices/> (Types of processing and data processed).

- **Google Tag Manager:** Google Tag Manager is a solution with which we can manage so-called website tags via an interface and thus integrate other services into our online services (please refer to further details in this privacy policy). With the Tag Manager itself (which implements the tags), for example, no user profiles are created or cookies are stored. Google only receives the IP address of the user, which is necessary to run the Google Tag Manager; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://marketingplatform.google.com>; **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://business.safety.google/adsprocessorterms>. **Basis for third country transfer:** EU-US Data Privacy Framework (DPF), Standard Contractual Clauses (<https://business.safety.google/adsprocessorterms/>).

Profiles in Social Networks (Social Media)

We maintain online presences within social networks and process user data in this context in order to communicate with the users active there or to offer information about us.

We would like to point out that user data may be processed outside the European

Union. This may entail risks for users, e.g. by making it more difficult to enforce users' rights.

In addition, user data is usually processed within social networks for market research and advertising purposes. For example, user profiles can be created on the basis of user behaviour and the associated interests of users. The user profiles can then be used, for example, to place advertisements within and outside the networks which are presumed to correspond to the interests of the users. For these purposes, cookies are usually stored on the user's computer, in which the user's usage behaviour and interests are stored. Furthermore, data can be stored in the user profiles independently of the devices used by the users (especially if the users are members of the respective networks or will become members later on).

For a detailed description of the respective processing operations and the opt-out options, please refer to the respective data protection declarations and information provided by the providers of the respective networks.

Also in the case of requests for information and the exercise of rights of data subjects, we point out that these can be most effectively pursued with the providers. Only the providers have access to the data of the users and can directly take appropriate measures and provide information. If you still need help, please do not hesitate to contact us.

- **Processed data types:** Contact data (e.g. e-mail, telephone numbers); Content data (e.g. text input, photographs, videos); Usage data (e.g. websites visited, interest in content, access times). Meta, communication and process data (e.g. IP addresses, time information, identification numbers, consent status).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Contact requests and communication; Feedback (e.g. collecting feedback via online form). Marketing.
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Instagram:** Social network; **Service provider:** Meta Platforms Ireland Limited, Merrion Road, Dublin 4, D04 X2K5, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.instagram.com>. **Privacy Policy:** <https://instagram.com/about/legal/privacy>.
- **Facebook Pages:** Profiles within the social network Facebook; **Service provider:** Meta Platforms Ireland Limited, Merrion Road, Dublin 4, D04 X2K5, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.facebook.com>; **Privacy Policy:** <https://www.facebook.com/about/privacy>; **Basis for third country transfer:**

EU-US Data Privacy Framework (DPF), Standard Contractual Clauses (https://www.facebook.com/legal/EU_data_transfer_addendum); **Further Information:** We are jointly responsible (so called "joint controller") with Meta Platforms Ireland Limited for the collection (but not the further processing) of data of visitors to our Facebook page. This data includes information about the types of content users view or interact with, or the actions they take (see "Things that you and others do and provide" in the Facebook Data Policy: <https://www.facebook.com/policy>), and information about the devices used by users (e.g., IP addresses, operating system, browser type, language settings, cookie information. see "Device Information" in the Facebook Data Policy: <https://www.facebook.com/policy>). As explained in the Facebook Data Policy under "How we use this information?" Facebook also collects and uses information to provide analytics services, known as "page insights," to site operators to help them understand how people interact with their pages and with content associated with them. We have concluded a special agreement with Facebook ("Information about Page-Insights", https://www.facebook.com/legal/terms/page_controller_addendum), which regulates in particular the security measures that Facebook must observe and in which Facebook has agreed to fulfill the rights of the persons concerned (i.e. users can send information access or deletion requests directly to Facebook). The rights of users (in particular to access to information, erasure, objection and complaint to the competent supervisory authority) are not restricted by the agreements with Facebook. Further information can be found in the "Information about Page Insights" (https://www.facebook.com/legal/terms/information_about_page_insights_data). The joint controllership is limited to the collection and transfer of the data to Meta Platforms Ireland Limited, a company located in the EU. Further processing of the data is the sole responsibility of Meta Platforms Ireland Limited.

- **LinkedIn:** Social network; **Service provider:** LinkedIn Ireland Unlimited Company, Wilton Place, Dublin 2, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.linkedin.com>; **Privacy Policy:** <https://www.linkedin.com/legal/privacy-policy>; **Basis for third country transfer:** EU-US Data Privacy Framework (DPF), Standard Contractual Clauses (<https://legal.linkedin.com/dpa>); **Opt-Out:** <https://www.linkedin.com/psettings/guest-controls/retargeting-opt-out>. **Further Information:** We are jointly responsible with LinkedIn Ireland Unlimited Company for the collection (but not the further processing) of data from visitors for the purposes of creating „Page-Insights" (statistics) for our LinkedIn profiles. This data includes information about the types of content that users view or interact with, or the actions they take, as well as information about the devices used by the users (e.g., IP addresses, operating system, browser type, language settings, cookie data) and details from the users' profiles, such as job function, country, industry, seniority, company size, and employment status. Privacy information regarding the processing of

user data by LinkedIn can be found in LinkedIn's privacy notices:

<https://www.linkedin.com/legal/privacy-policy>

We have concluded a special agreement with LinkedIn Ireland, the 'Page Insights Joint Controller Addendum (the 'Addendum')

(<https://legal.linkedin.com/pages-joint-controller-addendum>), which specifically regulates the security measures that LinkedIn must observe and wherein LinkedIn has agreed to fulfill the rights of the affected parties (i.e., users can, for example, direct requests for information or deletion directly to LinkedIn). The rights of the users (in particular to access to information, erasure, objection, and complaint to the competent supervisory authority) are not restricted by the agreements with LinkedIn. The joint responsibility is limited to the collection of data by and transmission to Ireland Unlimited Company, a company based in the EU. The further processing of the data is the sole responsibility of Ireland Unlimited Company, particularly regarding the transmission of data to the parent company LinkedIn Corporation in the USA.

Plugins and embedded functions and content

Within our online services, we integrate functional and content elements that are obtained from the servers of their respective providers (hereinafter referred to as "third-party providers"). These may, for example, be graphics, videos or city maps (hereinafter uniformly referred to as "Content").

The integration always presupposes that the third-party providers of this content process the IP address of the user, since they could not send the content to their browser without the IP address. The IP address is therefore required for the presentation of these contents or functions. We strive to use only those contents, whose respective offerers use the IP address only for the distribution of the contents. Third parties may also use so-called pixel tags (invisible graphics, also known as "web beacons") for statistical or marketing purposes. The "pixel tags" can be used to evaluate information such as visitor traffic on the pages of this website. The pseudonymous information may also be stored in cookies on the user's device and may include technical information about the browser and operating system, referring websites, visit times and other information about the use of our website, as well as may be linked to such information from other sources.

- **Processed data types:** Usage data (e.g. websites visited, interest in content, access times); Meta, communication and process data (e.g. IP addresses, time information, identification numbers, consent status); Inventory data (e.g. names, addresses); Contact data (e.g. e-mail, telephone numbers); Content data (e.g. text input, photographs, videos). Location data (Information on the geographical position of a device or person).

- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Provision of our online services and usability.
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR).

Further information on processing methods, procedures and services used:

- **Google Maps:** We integrate the maps of the service "Google Maps" from the provider Google. The data processed may include, in particular, IP addresses and location data of users; **Service provider:** Google Cloud EMEA Limited, 70 Sir John Rogerson's Quay, Dublin 2, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://mapsplatform.google.com/>; **Privacy Policy:** <https://policies.google.com/privacy>. **Basis for third country transfer:** EU-US Data Privacy Framework (DPF).
- **YouTube videos:** Video contents; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland, , parent company: Google LLC, 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://www.youtube.com>; **Privacy Policy:** <https://policies.google.com/privacy>; **Basis for third country transfer:** EU-US Data Privacy Framework (DPF). **Opt-Out:** Opt-Out-Plugin: <https://tools.google.com/dlpage/gaoptout?hl=en>, Settings for the Display of Advertisements: <https://myadcenter.google.com/personalizationoff>.

Changes and Updates to the Privacy Policy

We kindly ask you to inform yourself regularly about the contents of our data protection declaration. We will adjust the privacy policy as changes in our data processing practices make this necessary. We will inform you as soon as the changes require your cooperation (e.g. consent) or other individual notification.

If we provide addresses and contact information of companies and organizations in this privacy policy, we ask you to note that addresses may change over time and to verify the information before contacting us.

Terminology and Definitions

In this section, you will find an overview of the terminology used in this privacy policy. Where the terminology is legally defined, their legal definitions apply. The following explanations, however, are primarily intended to aid understanding.

- **Controller:** "Controller" means the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the

purposes and means of the processing of personal data.

- **Location data:** Location data is created when a mobile device (or another device with the technical requirements for a location determination) connects to a radio cell, a WLAN or similar technical means and functions of location determination. Location data serve to indicate the geographically determinable position of the earth at which the respective device is located. Location data can be used, for example, to display map functions or other information dependent on a location.
- **Personal Data:** "personal data" means any information relating to an identified or identifiable natural person ("data subject"); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.
- **Processing:** The term "processing" covers a wide range and practically every handling of data, be it collection, evaluation, storage, transmission or erasure.
- **Profiles with user-related information:** The processing of "profiles with user-related information", or "profiles" for short, includes any kind of automated processing of personal data that consists of using these personal data to analyse, evaluate or predict certain personal aspects relating to a natural person (depending on the type of profiling, this may include different information concerning demographics, behaviour and interests, such as interaction with websites and their content, etc.) (e.g. interests in certain content or products, click behaviour on a website or location). Cookies and web beacons are often used for profiling purposes.
- **Web Analytics:** Web Analytics serves the evaluation of visitor traffic of online services and can determine their behavior or interests in certain information, such as content of websites. With the help of web analytics, website owners, for example, can recognize at what time visitors visit their website and what content they are interested in. This enables them, for example, to better adapt the content of their websites to the needs of their visitors. For the purposes of web analytics, pseudonymous cookies and web beacons are often used to recognize returning visitors and thus obtain more precise analyses of the use of an online service.
